

Mobile Banking App Redesign – Kotak Bank

Author: Shubham Kumar

Project Type: UI/UX Professional Certification

Tools Used: Figma AI, Google Docs, PNG/PDF exports

Submission Date: 6 April 2026

Project Overview

Objective:

Redesign Kotak Bank's mobile app to improve usability, visual clarity, and user experience. The goal is to create a modern, clean, and intuitive banking app for all core banking activities.

Problem Statement:

The existing app has multiple usability issues: cluttered navigation, inconsistent UI elements, and limited accessibility options.

Solution:

- **Simplified navigation with clear bottom menu**
- **Improved visual hierarchy and typography**
- **Consistent and modern color palette:**
 - **Primary: #FF5733**
 - **Secondary: #FFFFFF**
 - **Neutral: #F5F5F5**
- **Functional, scrollable screens for mobile**
- **Quick access to core actions: Send Money, Pay Bills, Transaction History**

Tools Used:

- Figma AI for design generation
 - Google Docs for documentation
 - PNG/PDF for submission
-

Screens & Features

Screen	Description
Login Page	Secure login with email/mobile and password
OTP Verification	6-digit OTP input for authentication
Home / Dashboard	Overview of accounts, quick actions, banners
Account Details	List of multiple accounts with balances
Send Money	Transfer funds with recipient selection and preview
Payment Confirmation	Confirm transaction details
Payment Success	Transaction completed confirmation
Transaction History	Track credits/debits
Bill Payment	Pay recurring bills
Profile	User info & settings
Add Funds	Link account/card and add money
Transfer History	Past fund transfers, filters
Settings	Notifications, security, theme
Help / Support	FAQ and chat support
Footer / Navigation	Bottom nav bar for all screens

 **Note:** Scrollable screens include multiple screenshots to capture full Y-axis content.

Design Decisions

Navigation: Bottom navigation bar with 5 main items → Home, Send Money, History, Bills, Profile. Simplifies core task access.

Colors: Bright, high-contrast palette to ensure visibility and accessibility.

Typography: Clear heading hierarchy (H1, H2, H3), legible body text, and spacing rules for readability.

Components: Buttons, input fields, dropdowns, cards, and icons are consistent across all screens.

Responsiveness: Screens are designed for mobile; layouts are stackable and touch-target friendly. Desktop adaptation follows the same design principles.

AI Assistance & Workflow

- AI(FigmaAI) was used to generate high-fidelity mobile screens based on prompts.
- Screenshots were exported as PNGs and organized in order.
- Google Doc was used to document descriptions, captions, and design rationale.
- PDFs exported for submission.

AI Prompt Used (example):

“Design a fully functional Kotak Bank mobile app with login, OTP, dashboard, account details, send money, payment confirmation, payment success, transaction history, bill payment, profile, add funds, transfer history, settings, help, and navigation screens. Use modern UI/UX, clean layout, and Kotak Bank color scheme.”

Table of Contents

1. Login Page
 2. OTP Verification Page
 3. Home / Dashboard
 4. Account Details
 5. Send Money
 6. Payment Confirmation
 7. Payment Success
 8. Transaction History
 9. Bill Payment
 10. Profile
 11. Add Funds
 12. Transfer History
 13. Settings
 14. Help / Support
 15. Footer / Navigation
-

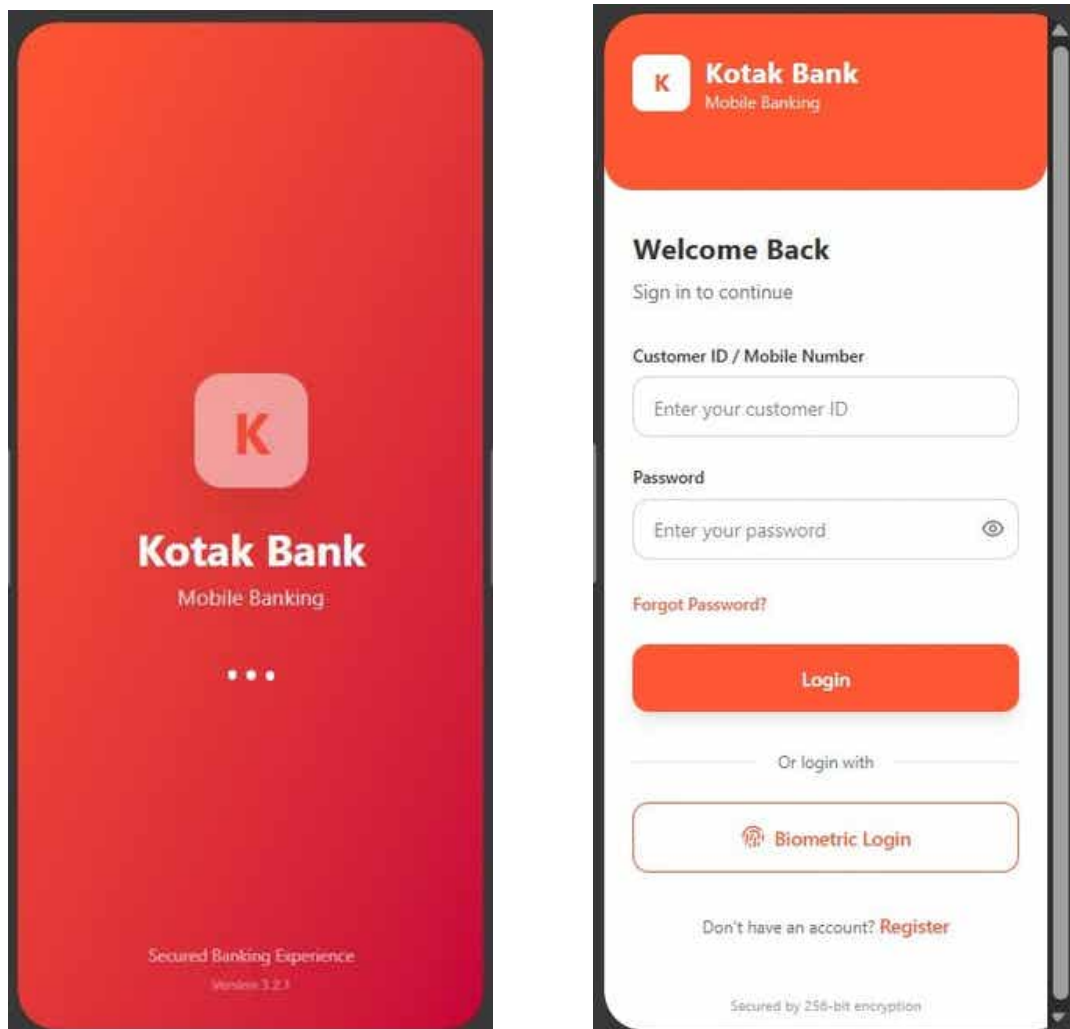

Login Page

Purpose: Secure and simple login for registered users.

Description:

- Email/mobile input
- Password input
- Login button with clear call-to-action
- “Forgot Password?” link
- Biometric login option

Screenshot:

Caption: Clean login interface ensuring secure access.

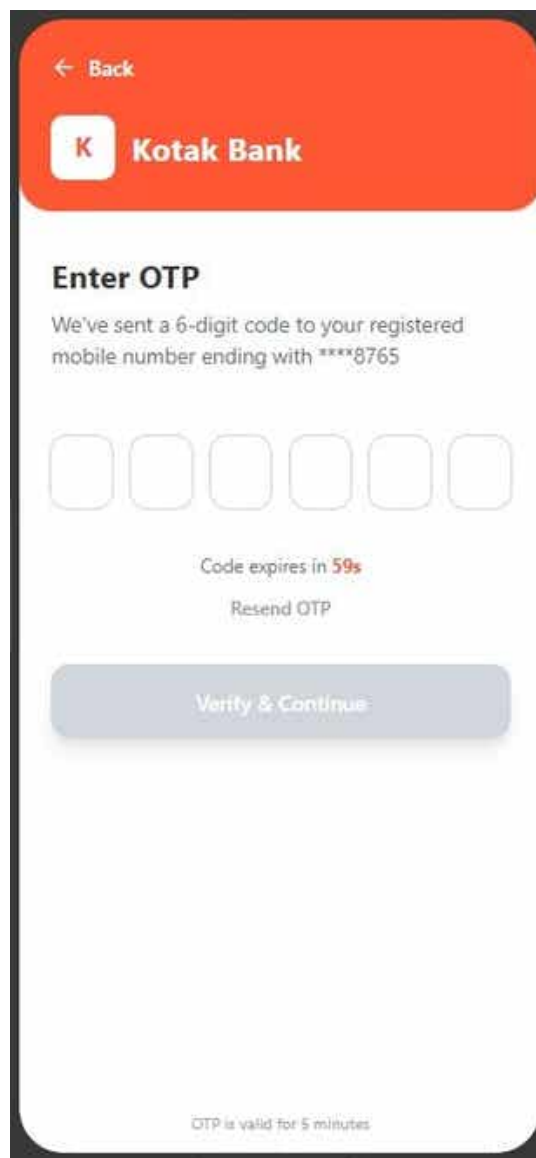

OTP Verification Page

Purpose: Verify user identity securely.

Description:

- Enter 6-digit OTP
- Countdown timer
- Resend OTP button

Screenshot:

Caption: OTP verification screen for secure login.

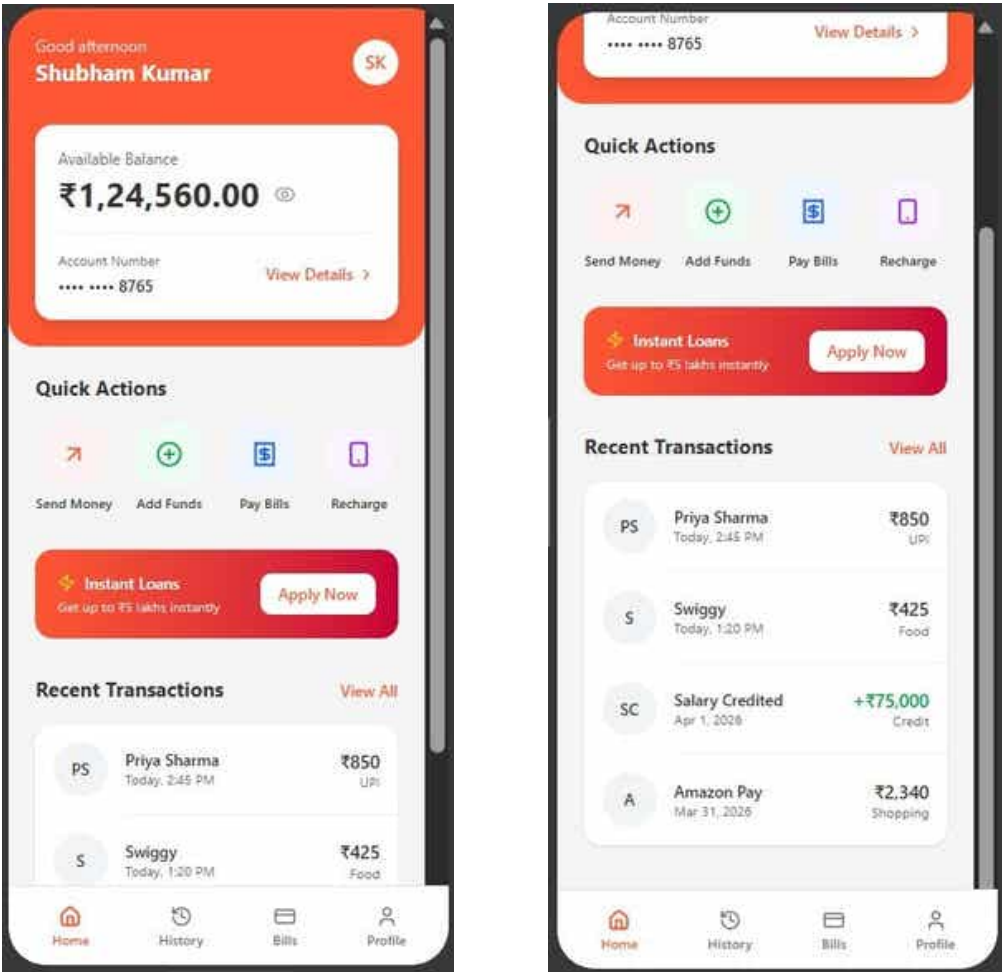

Home / Dashboard

Purpose: Quick overview of accounts and actions.

Description:

- Welcome message (Shivam Kumar)
- Account summary with balances
- Quick actions: Send Money, Pay Bills, Transaction History
- Promotional banner (optional)

Screenshot:

Caption: Home dashboard showing account overview and quick actions.

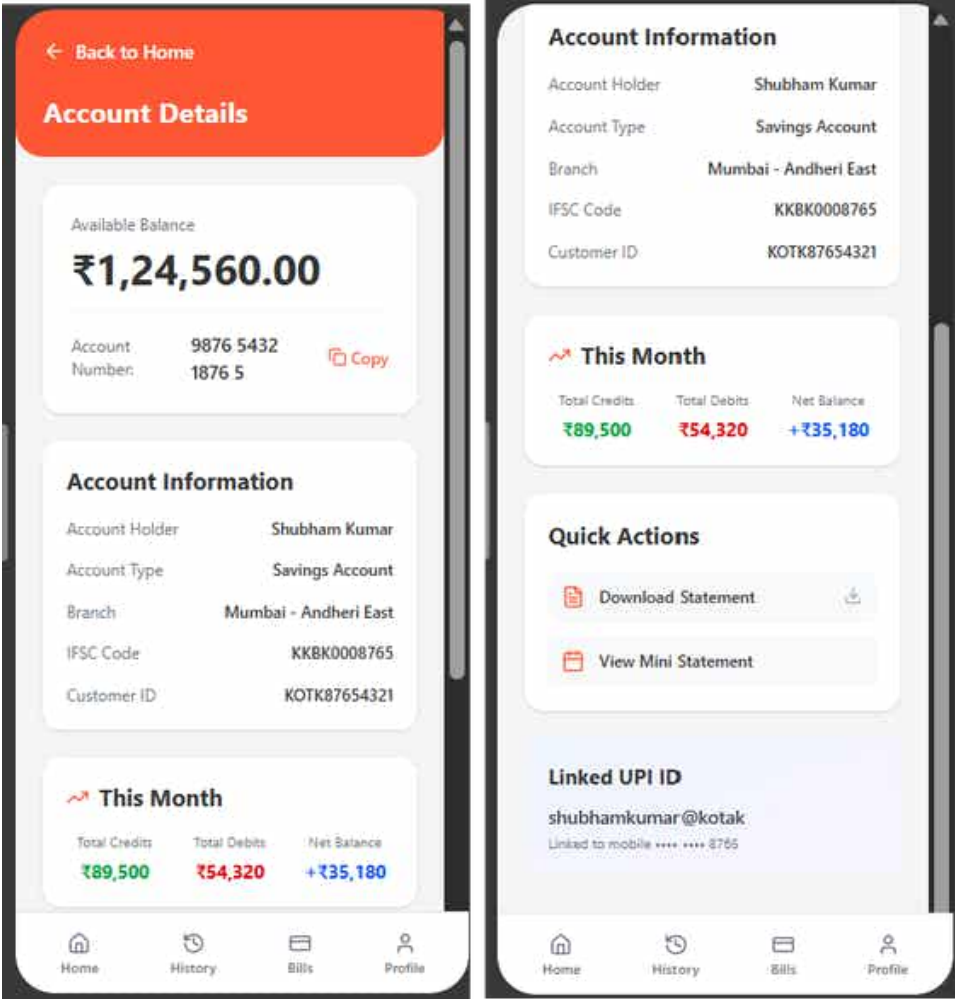

Account Details

Purpose: View full account details with balances and statements.

Description:

- Multiple accounts listed with balance and type
- Option to download statements

Screenshots:

Caption: Scrollable account details for complete visibility.

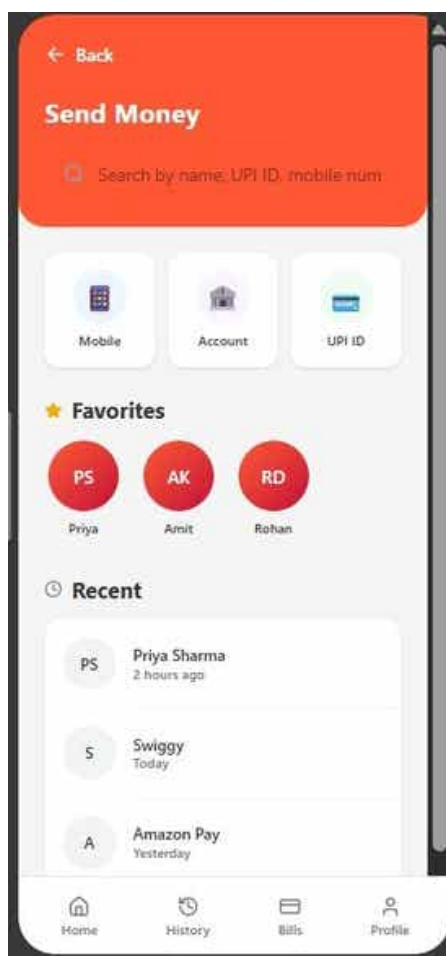

Send Money

Purpose: Make secure fund transfers.

Description:

- Select recipient (contacts or new account)
- Enter amount and optional note
- Choose debit account
- Preview before sending

Screenshot:

Caption: Streamlined interface for sending money efficiently.

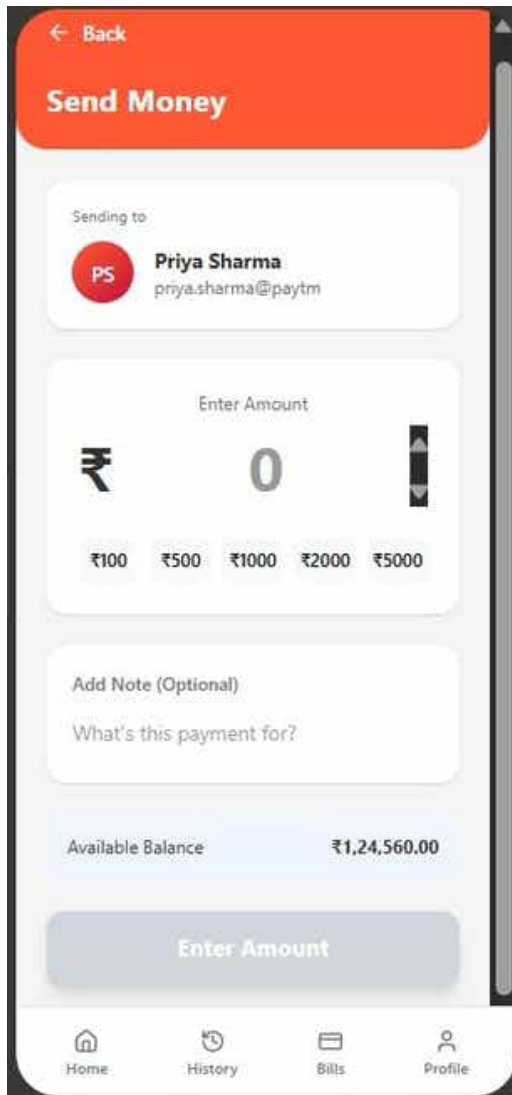

Payment Confirmation

Purpose: Confirm payment details before sending.

Description:

- Summary of transaction: recipient, amount, date
- Confirm / Cancel buttons

Screenshot:

Caption: Clear payment confirmation before processing.

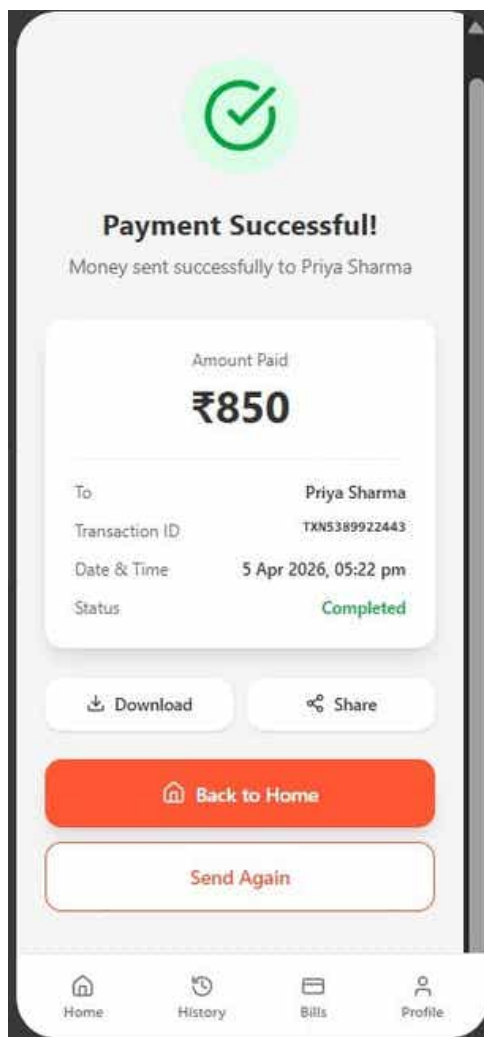

Payment Success

Purpose: Inform user of successful transaction.

Description:

- Green checkmark & “Payment Successful” message
- Transaction ID
- Options: Go Home / View History

Screenshot:

Caption: Positive feedback for completed payments.

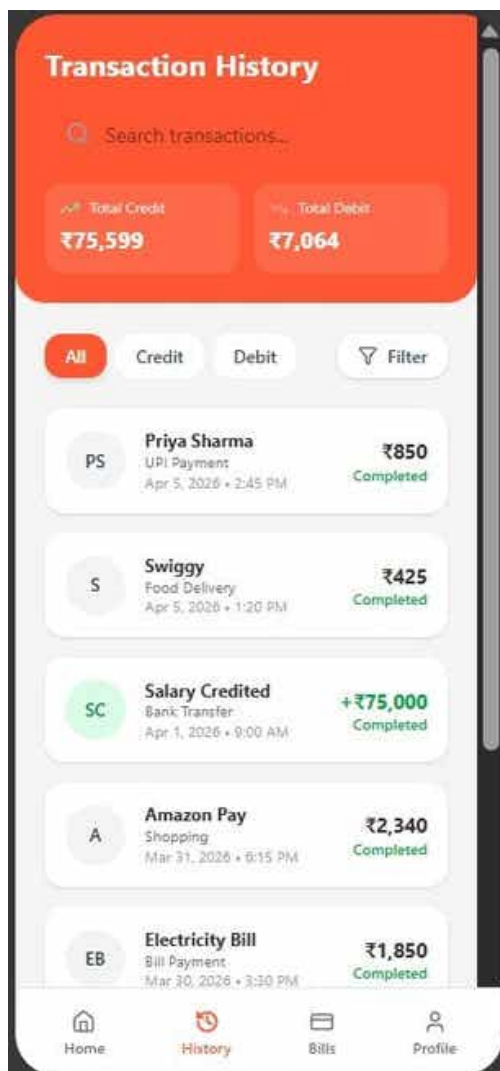

Transaction History

Purpose: Track all past transactions.

Description:

- List of transactions
- Filter by date/type
- Credits and debits visually distinguished

Screenshots:

Caption: Scrollable transaction history for detailed tracking.

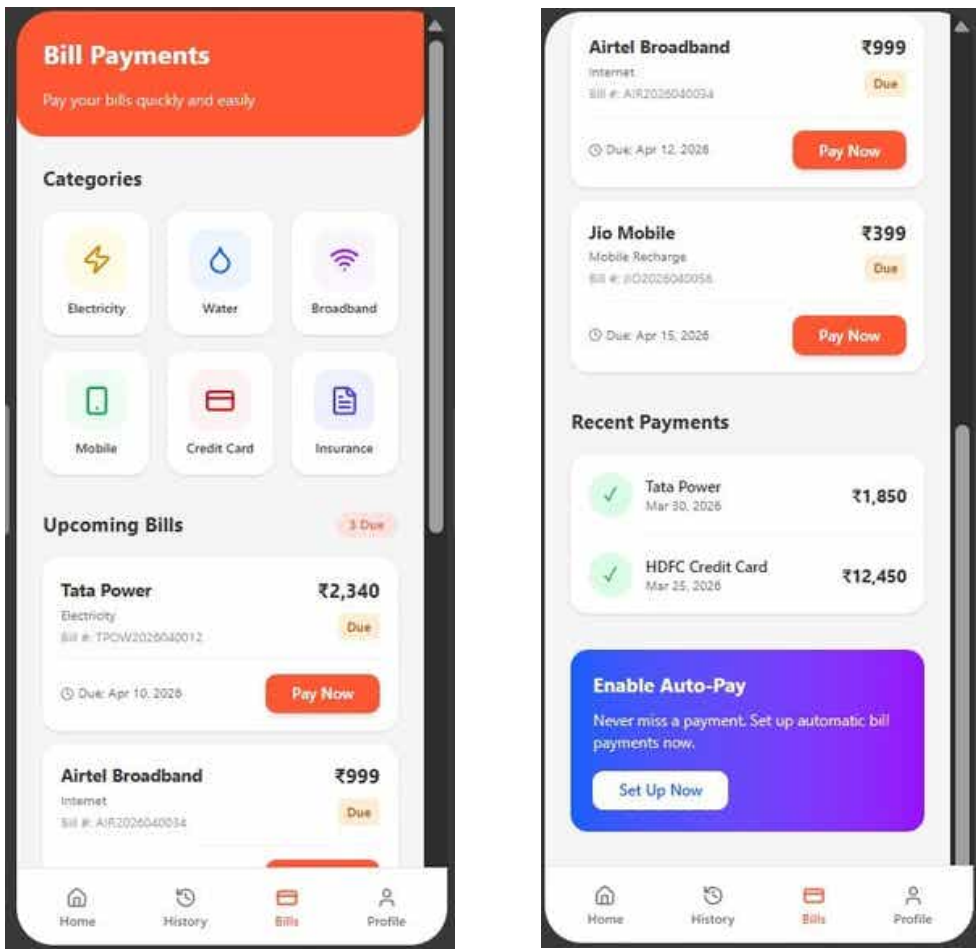

Bill Payment

Purpose: Manage and pay recurring bills.

Description:

- List of bills (Electricity, Internet, etc.)
- Pay or add new bills
- Payment status indicators

Screenshots:

Caption: Scrollable bill payment interface for convenience.

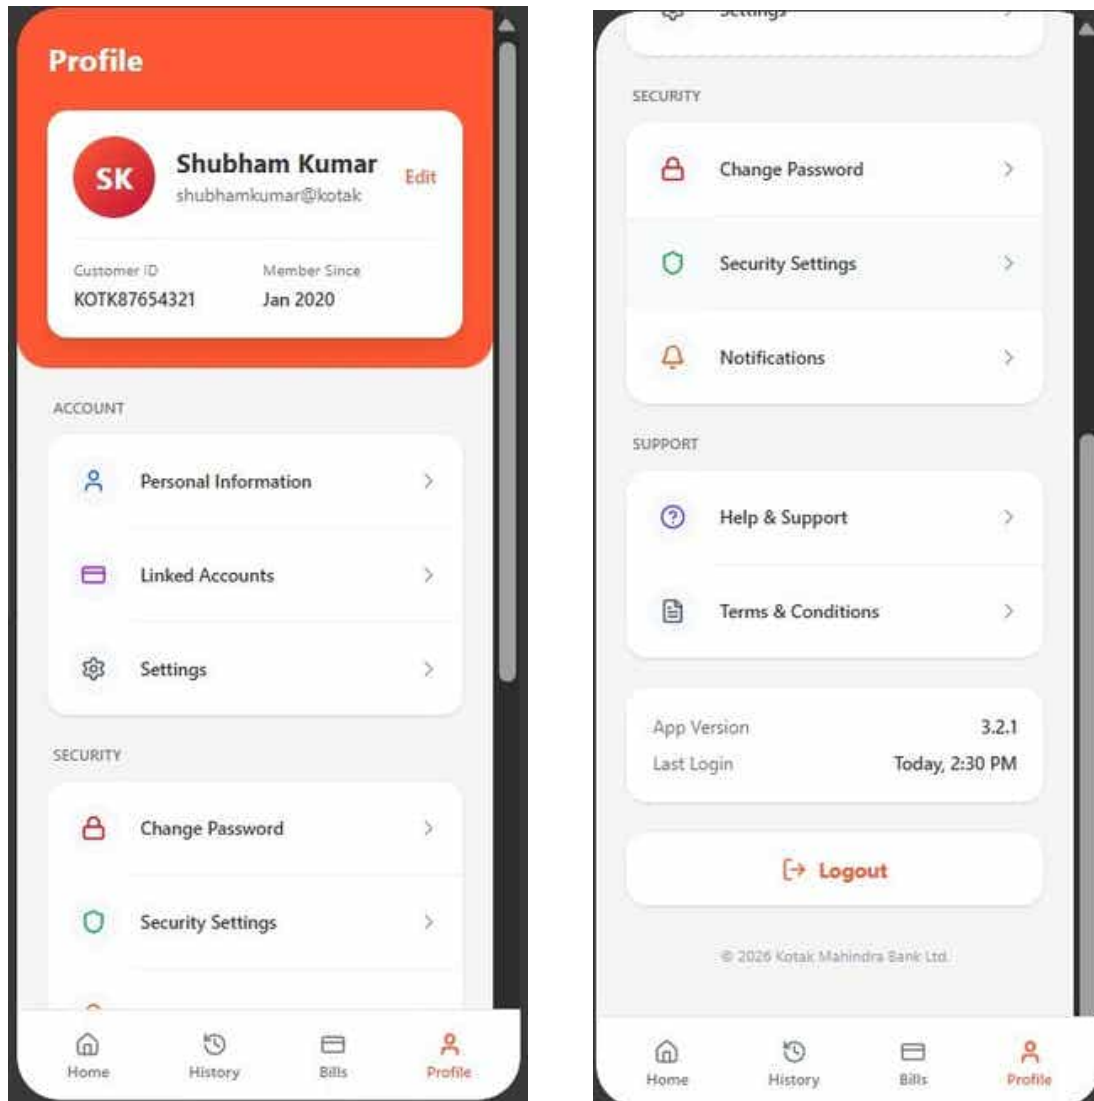

Profile

Purpose: View and edit personal account information.

Description:

- User photo and name
- Edit profile and settings/logout options

Screenshot:

Caption: Profile page for user management.

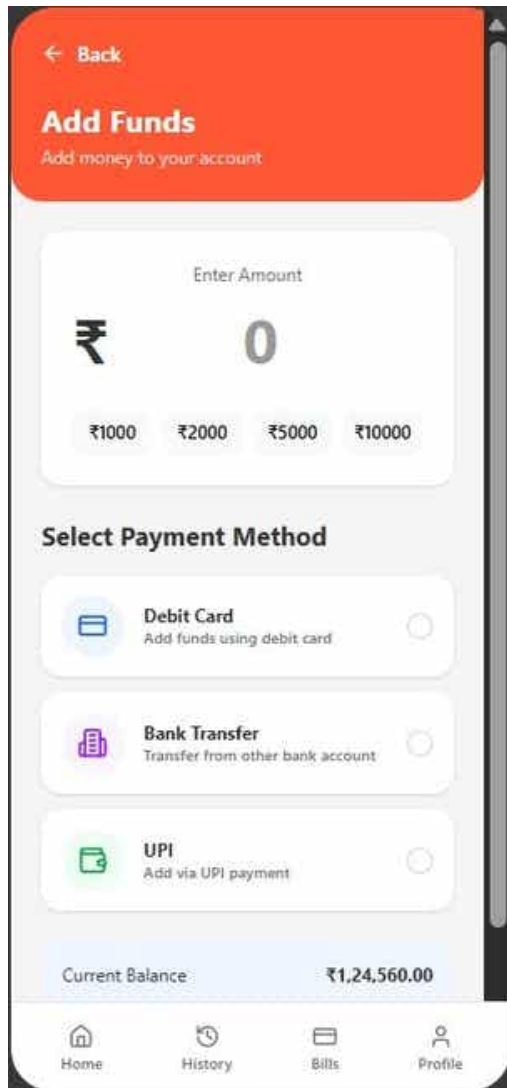

Add Funds

Purpose: Add money to account easily.

Description:

- Link bank account or debit card
- Enter amount and preview

Screenshot:

Caption: Add funds securely with simple workflow.

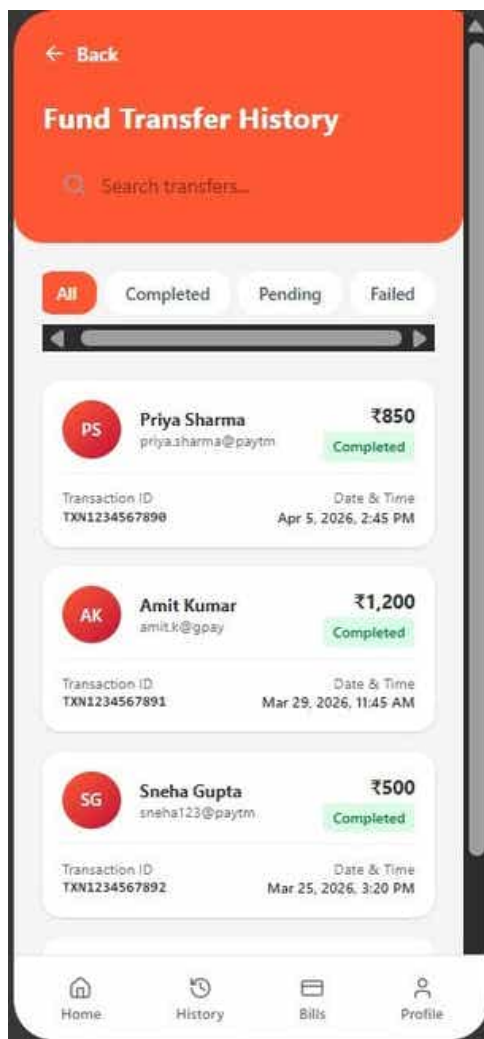

Transfer History

Purpose: View all past fund transfers.

Description:

- List of previous transfers
- Status: Completed / Pending
- Filter & search functionality

Screenshot:

Caption: Track fund transfers efficiently.

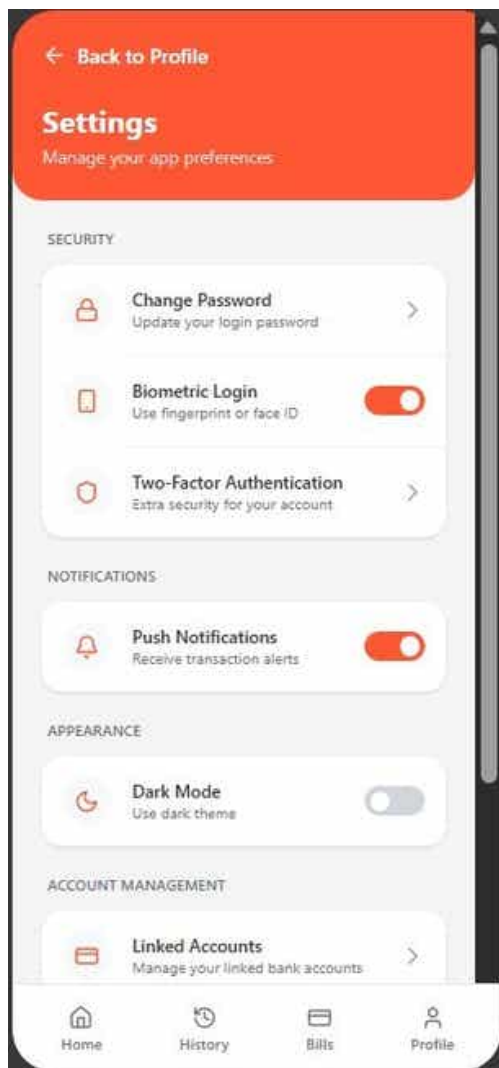

Settings

Purpose: Manage app preferences and security.

Description:

- Notifications, security, app theme, linked accounts

Screenshot:

Caption: Centralized settings for easy management.

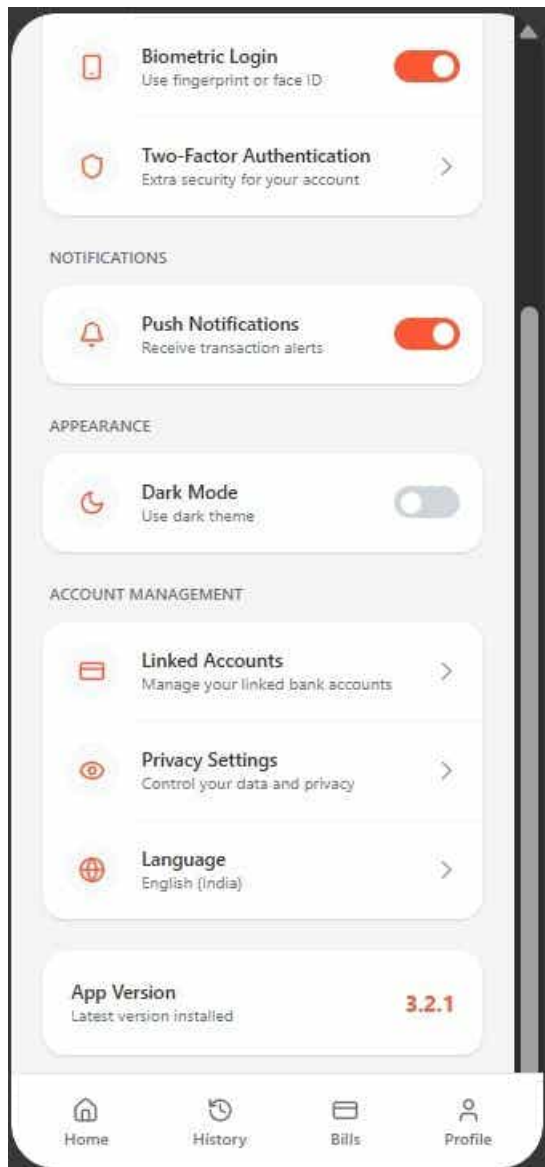

Help / Support

Purpose: Provide assistance and FAQs.

Description:

- Chat support, FAQ, contact customer service

Screenshot:

Caption: Access help and support quickly.

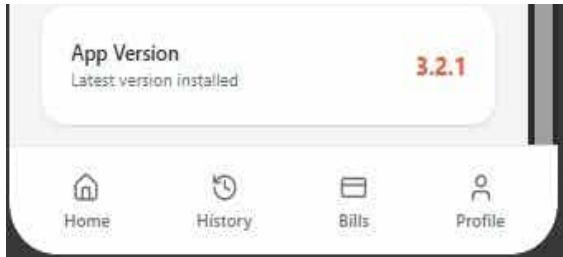

Footer / Navigation

Purpose: Easy navigation across the app.

Description:

- Bottom navigation bar: Home, Send Money, History, Bills, Profile

Screenshot:

Caption: Consistent bottom navigation for easy access.

Kotak Bank Mobile App Redesign – Workflow

Login Flow

Step 1: Open App → User sees **Login Page**

- Inputs registered email/phone and password
- Option for biometric login

Step 2: Click **Login** → User is directed to **OTP Verification**

- Enter 6-digit OTP
- Countdown and “Resend OTP” option

Security check before granting access

Home / Dashboard Flow

Step 1: Successful login → User lands on **Home / Dashboard**

- Overview of all accounts and balances
 - Quick access to main actions:
 - Send Money
 - Pay Bills
 - Transaction History
 - Optional: promotional banner / notifications
-

Account Details Flow (Scrollable)

Step 1: From Dashboard → Tap on **Accounts**

Step 2: View list of multiple accounts with balances

- Account type, number, and available balance
- Option to download statements

Step 3: Scroll vertically → See all accounts (2 screenshots capture full view)

Enables users to quickly review all accounts

Send Money Flow

Step 1: From Home → Tap **Send Money**

Step 2: Select recipient:

- Existing contact or new account

Step 3: Enter amount and optional description

Step 4: Choose debit account → Click **Preview**

Step 5: Confirmation page → **Confirm Payment**

Step 6: Payment Success → Green checkmark + Transaction ID

Streamlined, minimal clicks for transfer

Payment History Flow (Scrollable)

Step 1: From Home → Tap **Transaction History**

Step 2: List of transactions with:

- Credits and debits visually distinguished
- Date, amount, and status

Step 3: Scroll vertically to see full history (2 screenshots)

Users can track their transactions easily

Bill Payment Flow (Scrollable)

Step 1: From Home → Tap **Bills**

Step 2: View list of recurring bills

- Electricity, Internet, etc.

- Status: Paid / Pending

Step 3: Pay or add new bill

Step 4: Confirmation and success feedback

Fully scrollable, easy bill management

Profile & Account Settings Flow

Step 1: From Home → Tap **Profile**

Step 2: View personal info (photo, name, account details)

Step 3: Edit profile → Update info, set preferences

Step 4: Access **Settings** → Notifications, security, app theme

One place for account management and preferences

Add Funds & Transfer History Flow

Add Funds:

- Link bank account / debit card
- Enter amount → Preview → Confirm

Transfer History:

- Track all fund transfers with status
- Filter by date/type

Smooth flow for adding and tracking funds

Help & Support Flow

Step 1: From Home or Profile → Tap **Help / Support**

Step 2: Access:

- FAQ list
- Chat support
- Contact customer service

Quick access for assistance

Navigation Flow

- **Bottom Navigation Bar:** Home, Send Money, History, Bills, Profile
- Consistent across all screens → Minimal clicks to reach any core function

Example Flow:

Login → OTP → Home → Send Money → Payment Confirmation → Success → Home

Home → Accounts → Scrollable Account Details → Home

Home → Transaction History → Scrollable History → Home
